Portable / Table Radio Loop Antennas

Tunable AM Radio Loop Antenna (TAM)

A truly fantastic antenna for Portable Radios and those with an inbuilt Ferrite Rod or internal AM antenna, supplied with easy to follow instructions and Australian Stations List. Tunes 520 - 1725KHz Our most popular product and the one that suits 99 percent of portable radios. This 36cm (14") Diameter Loop will significantly; lift up weak stations, extend reception range and improve sound clarity where only poor reception existed before!

All 4 models are ideal for use with a Sangean PR-D7 AM Radio!

Mini Tunable AM Radio Loop Antenna (MTAM)

Same as above, but smaller at 23cm (9"), with 25% less signal gain, but highly effective ! Ideal for cramped locations like; bedside clock radio, or if you like to travel with a small radio

Large Tunable AM Radio Loop Antenna (HDLTAM)

Large 40cm / 16" diameter high performance loop using our HD Series construction

Extra Large Tunable AM Radio Loop Antenna (HDXLTAM)

Extra Large 50cm / 20" diameter high performance loop with HD Series construction, easily provides the extra signal gain and tuning sharpness required for serious DX work.

Hi-Fi Loop Antennas

Hi-Fi Loop - Matched Loop Antenna for HI-FI Receivers - Indoor Version

A high performance Matched Loop Antenna designed to replace poor performing AM loops supplied with Hi-Fi Tuners and Bookshelf Systems. Broadband design requires no tuning. Supplied and configured with either 5 or 10 metres of cable allowing you to mount the antenna well away from the receiver and any sources of interference, such as that found in Home Cinema racks etc... Internal Dip Switches allow setting cable length used and optimum match to your Tuner. Suits, SONY, TIVOLI, DENON, PIONEER, YAMAHA and most others with AM Loop terminals. A great product not seen elsewhere, really improves AM performance!

A-LOOP-MATCH-5 5metres	\$	90
A-LOOP-MATCH-10 10metres	\$	95

HD Series Matched Loop Antenna for HI-FI Receivers - Outdoor Version

Commercial grade Outdoor Matched Loop Antenna, supplied with HD L-Mount bracket, can be used with RG-59 or RG-6Quad Cable up to 30m long. Ideal for building applications and easy to use DIP Switch configuration for Installers. (Freq. range 520 to 1725KHz)

(See below for optional Baluns/Amplifiers/Splitters etc.)

Optional 10metre Coax Cable, BNC - Open Ends to suit HiFi Tuners with "Loop" Terminals

C-LOOP-HDMATCH	\$	160
(With 10m Cable)	\$	170
C-CABLE-BNC-OPEN10	\$	10

Amplified Long Range AM Antenna - Hi-Fi KIT - MKII

This 25cm (10") mini indoor amplified antenna is used for low AM signal levels on Hi-Fi Systems and Radios with Loop Terminals or Ant & Gnd terminals. Supplied with user guide, 2m BNC to open Ends Cable for connection to your radio and an Australian 240v Plug Pack for Mains operation. Optional DC Battery Lead also available.

Please also specify the type of radio that it will be used with =>

C-LOOP-HDMATCH-F	\$	160

Single Station Loops

HD Series AM Single Station Loop Antenna

Commercial Grade MW Monitoring Loop, Narrowband Fixed Frequency AM Loop with BNC connector, L-Mount Bracket. Available in 50 or 75 Ohms

C-LOOP-HDNFxxxx	\$	175
-----------------	----	-----

HD Series High Gain AM Single Station Loop Antenna

Commercial Grade Large MW Monitoring Loop, Narrowband Fixed Frequency AM Loop with BNC connector, L-Mount Bracket, approx 3dB higher gain than C-LOOP-HDNF available in 50 or 75 Ohms.

C-LOOP-HDLFxxxx	\$	190
-----------------	----	-----

HD Series Electrostatically Shielded High Gain AM Single Station Loop Antenna

Commercial Grade Large MW Monitoring Loop, Electrostatically Shielded, Narrowband Fixed Frequency AM Loop with L-Mount Bracket. Available in 50 or 75 Ohms.

C-LOOP-HDLSFxxxx	\$	230
------------------	----	-----

Amplifiers & Distribution Systems

AM Line Amplifier

Amplifier with 0.5-2MHz Bandpass and VHF Reject filter. Available with F-Female or BNC connectors, (with AUS/NZ 12 volt Plug pack). Excellent 3rd order IP, works well in crowded AM environments.

C-AMP-AM2 (Suffix -F / -BNC)	\$	150
------------------------------	----	-----

AM Distribution Amplifier

AM Distribution Amplifier - 8 Output, Bandpass 500-2000KHz, 8 x 75 Ohm Outputs (either F-Female or BNC Connectors) in Diecast housing, with external DC power supply. Many options available including; 50Ohm, Dual Redundant power supplies, individual output band pass filters, DC injection for HDWAM Loop, FM Pass-through and more... Please enquire, note price shown for base model, i.e. without options.

C-DIST-AM8 (Suffix -F / -BNC)	\$	345
-------------------------------	----	-----

Splitters & Multicouplers

2 Way AM Splitter for HiFi Receivers (except Denon or bookshelf systems!)

C-RX-2SPLIT-GND	\$	39
