Portable / Table Radio Loop Antennas

Tunable AM Radio Loop Antenna (TAM)

A truly fantastic antenna for Portable Radios and those with an inbuilt Ferrite Rod or internal AM antenna, supplied with easy to follow instructions and Australian Stations List. Tunes 520 - 1725KHz Our most popular product and the one that suits 99 percent of portable radios. This 36cm (14") Diameter Loop will significantly; lift up weak stations, extend reception range and improve sound clarity where only poor reception existed before!

All 4 models are ideal for use with a Sangean PR-D7 AM Radio!

Mini Tunable AM Radio Loop Antenna (MTAM)

Same as above, but smaller at 23cm (9"), with 25% less signal gain, but highly effective ! Ideal for cramped locations like; bedside clock radio, or if you like to travel with a small radio

Large Tunable AM Radio Loop Antenna (HDLTAM)

Large 40cm / 16" diameter high performance loop using our HD Series construction

Extra Large Tunable AM Radio Loop Antenna (HDXLTAM)

Extra Large 50cm / 20" diameter high performance loop with HD Series construction, easily provides the extra signal gain and tuning sharpness required for serious DX work.

Hi-Fi Loop Antennas

Hi-Fi Loop - Matched Loop Antenna for Hi-Fi Receivers - Indoor Version

A high performance Matched Loop Antenna designed to replace poor performing AM loops supplied with Hi-Fi Tuners and Bookshelf Systems. Broadband design, so no tuning. Supplied and configured with either 5 or 10 metres of cable allows you to put the antenna well away from the receiver and any sources of interference, such as that found in Home Cinema racks etc... Internal Dip Switches allow setting cable length used and optimum match to your Tuner. Suits, SONY, TIVOLI, DENON, PIONEER, YAMAHA and most others with AM Loop terminals. A great product not seen elsewhere, really improves AM performance!

HD Series Matched Loop Antenna for Hi-Fi Receivers - Outdoor Version

Commercial grade Outdoor Matched Loop Antenna, supplied with HD L-Mount bracket, can be used with RG-59 or RG-6Quad Cable up to 30m long. Ideal for building applications and easy to use DIP Switch configuration for Installers. (Freq. range 520 to 1725KHz)

Optional 10m BNC-Open Cable ends for HiFi Tuners with "Loop" Terminals

Optional 10m F-Open Cable ends for HiFi Tuners with "Loop" Terminals

(See below for optional Baluns/Amplifiers/Splitters etc.)

Single Station Loop Antennas

Single Station Loop Antenna for AM Radio Portables

Custom Built 14"/36cm Single Station Antenna, with user guide, available for any fixed frequency 525-1725KHz, please email your desired Station & Frequency with your order.

Standard Stock Models available for:-

3LO 774KHz ABC Melbourne Single Station Loop for AM Portables

4KZ 531KHz Innisfail QLD Single Station Loop for AM Portables, for Innisfail QLD Radio 4KZ

HD Series Outdoor Single Station Loop Antenna for AM Receivers

Heavy duty weather proof construction, Narrowband Fixed Frequency AM Loop with BNC connector, L-Mounting Bracket. Either 75 Ohms standard, 50 Ohms, or F-Female connector available on request.

HD Series Narrowband Standard Model

HD Series Larger/High Gain Version of above antenna

HD Series Electrostatically Shielded Large Single Station Loop

Remote Tuned AM Loop Antenna

HD Series 16"/40cm Passive Remote Tuned AM Loop with 10m Cable

High performance Outdoor Remote Tuned AM Antenna ! Decreases local interference, noise and static, for strong and clear reception. Easy to use Loop Control Box connects to the loop with a single coax cable. Powered by a 9 volt battery inside the control box, low power consumption; battery life ~12 months. This antenna can connect to HiFi Tuners, AM Receivers, Car Radios. We can supply/modify the Sangean PR-D7-II with an External Antenna socket; this portable thrives on the signal from this antenna in fringe applications !!

NEW HD Series 16"/40cm Fringe-Amplified Remote Tuned AM Loop with 10m F-BNC Cable AUS/NZ 240v Plugpack and L-Mount Bracket

Commercial Tuners & Antennas

NuVo T2 Professional Dual AM/FM Tuner (Our No.1 Selling Commercial Tuner)

Pro Rack Mount Dual AM / FM tuner. Independent RCA line outputs, IR & RS-232 remote control. For best reception results, use our C-INT-NUVO Tuner Interface and AM/FM Antenna Combiner.

NuVo T2 Tuner Interface

NuVo Tuner Interface with AM/FM Combiner, allows an AM Loop to combine with an existing Whip or Yagi for FM

We offer a refurbishment service for Nuvo T2 Tuners, including power supply repairs, replacement OLED screens, firmware updates, etc. We also can supply new remote controls. If you are interested please email or call !

HD Series Loop Antennas for Longwave, Mediumwave and Shortwave

HD Series High Performance Amplified Loop Antennas

Models available for Longwave, Medium wave and Shortwave. Supplied with a 2m BNC Cable and 3.5mm adapter, our 9volt Battery holder option, and a 2.5mm EIA DC plug cable to bare wires for connection to your own 12 Volt supply.

- 16" Longwave 150 to 500 KHz
- 16" Medium Wave Model - 525 to 1925KHz
- 20" Medium Wave Model - 525 to 1725KHz
- ~~Shortwave Model - 6 to 18 MHz - THIS PRODUCT HAS BEEN DISCONTINUED, -~~
- ~~REPLACED WITH NEW DESIGN IMPROVED SW LOOP SERIES II. see below. -~~
- 16" HamLoop - 80m to 20m
- 16" Tropics Band Loop - 1.8 to 6MHz
- NEW MODEL I --> Shortwave Loop Series II - 5.5 to 21.5MHz

Longwave Loop Antennas

Passive Tunable Longwave Loop Antenna for Portables

Ideal for use with Longwave Radios with an inbuilt Ferrite Rod antenna, this Loop Antenna is tunable across the main Longwave band segment from approximately 155-500KHz, other ranges are available on request.

- 155-500 KHz Standard Model, Ideal for NDB's
- 150-450 KHz Version, Ideal for European LW Band

Commercial Installation Products and Services

PK's Loop Antennas manufacture products for Broadcasters, Monitoring Agencies and Cable Head ends
We also offer Engineering and Technical support to AM Antenna Installers and System Engineers

Full Band Loops

HD Series Shielded Wideband AM Loop Antenna

Commercial Grade Outdoor Wideband Amplified Loop. With L-Mount bracket, Single Output DC Injector and AUS/NZ 12 Volt Plugpack (Freq. range 520 to 1725KHz) Ideal for building applications, with long cable runs. Antenna has F-Female Connector, with BNC Socket for the Output on the DC Injector.

Same as above but with Dual BNC Socket Outputs DC Injector

C-LOOP-HDLWAM-F \$ 275

C-LOOP-HDLWAM-F-2P \$ 300

HD Series Matched Loop Antenna for HiFi Tuners

Commercial Grade Matched Loop Antenna for HiFi Tuners, providing full AM Band coverage, fitted with BNC or F (- F Option) connector, L-Mount Bracket.

C-LOOP-HDMATCH \$ 160

C-LOOP-HDMATCH-F \$ 160

Single Station Loops

HD Series AM Single Station Loop Antenna

Commercial Grade Medium Wave Band Monitoring Loop, Narrowband Fixed Frequency AM Loop with BNC connector, L-Mount Bracket. Available in 50 or 75 Ohms, with many other options available.

C-LOOP-HDNFxxxx \$ 190

HD Series High Gain AM Single Station Loop Antenna

Commercial Grade Large MW Monitoring Loop, Narrowband Fixed Frequency AM Loop with BNC connector, L-Mount Bracket, approx 3dB higher gain than C-LOOP-HDNF available in 50 or 75 Ohms.

C-LOOP-HDLFxxxx \$ 220

HD Series Electrostatically Shielded High Gain AM Single Station Loop Antenna

Commercial Grade Large MW Monitoring Loop, Electrostatically Shielded, Narrowband Fixed Frequency AM Loop with L-Mount Bracket. Available in 50 or 75 Ohms.

C-LOOP-HDLSFxxxx \$ 250

Amplifiers & Distribution Systems

AM Line Amplifier

Amplifier with 0.5-2MHz Bandpass and VHF Reject filter. Available with F-Female or BNC connectors, (with AUS/NZ 12 volt Plug pack). Excellent 3rd order IP, works well in crowded AM environments.

C-DIST-AM2 (Suffix -F) \$ 159

AM Distribution Amplifier

AM Distribution Amplifier - 8 Output, Bandpass 500-2000KHz, 8 x 75 Ohm Outputs (either F-Female or BNC Connectors) in Diecast housing, with external DC power supply. Many options available including; 50Ohm, Dual Redundant power supplies, individual output band pass filters, DC injection for HDWAM Loop, FM Pass-through and more... Please enquire, note price shown for base model, i.e. without options.

C-DIST-AM8 (Suffix -F) \$ 365

Splitters & Multicouplers

2 Way AM Splitter for HiFi Receivers (except Denon or bookshelf systems!)

C-RX-2SPLIT-GND \$ 35

2 Output Multicoupler for receivers, passes 0.3-75MHz, standard has F-Type connectors.

Available options; -BNC, -50 or -75 Ohms (Note add these as suffix when ordering)

C-MULTI-2P-xx-xx \$ 59

4 Output Wideband Multicoupler for receivers, 75 Ohm F type Connectors, passes 10-2400MHz

C-MULTI-4P \$ 79

8 Output Wideband Multicoupler for receivers, 75 Ohm BNC Female Connectors, passes 0.5-1000MHz

C-MULTI-8P \$ 129

Baluns for Receivers

HiFi Tuner Balun with Ground wire

AM Balun specially designed for use on Tuners with balanced or un-grounded loop inputs. Excellent frequency response and minimum loss. Most mini Hi-Fi or Bookshelf systems will require one of these.

C-RX-BALUN-GND-F \$ 25

Filters

AM Notch / Band Reject Filter to attenuate one station

C-FILTER-BRxxxx \$POA

AM Bandpass Filter (Peak up 1 station and reject others)

C-FILTER-BPFxxxx \$POA

Longwave Lowpass Filter (cut off above 500 KHz)

C-FILTER-LPF500 \$ 99

Combiners

AM/FM Combiner

Allows a Loop on AM to be combined with an existing FM Whip or Yagi

C-COMB-AMFM \$ 65

Loop Combiner

2 Input AM Loop combiner to a single coax, > 20dB Isolation, < 3dB Loss

C-COMB-2P \$ 65

Tuned Combiner

2 Input Tuned AM Loop combiner to a single coax, >40dB Isolation, <1dB Loss

C-COMB-2P-Fxxxx-Fyyyy \$ 75

WP Housing

Weatherproof housing to suit combiners

C-COMB-WP \$ 20
